Naytura's sculptured glass sconces share the same exclusive glass work that can be found in our sculptured glass chandeliers. The impeccable detail of Naytura's glass work is evident in these pieces. The glass is designed to look much like distant mountains, while the bronze cow elk and calf are grazing in the foreground, framed by bronze trees. The detailing of the glass can only be found in a Naytura fixture, and can not be reproduced elsewhere.

These large Sconces can be built as either indoor or outdoor fixtures, and will surely be a conversation piece for many years. Using two bulbs these fixtures can provide an abundance of light, or be dimmed to create a romantic mood where they are placed.
